

SOOTHING AND COMFORTING

For the non proficient 'coloristas', trying to combine powder coating colors to create a soothing palette might end up creating an optical color impairment. In the powder coatings industry, as in other walks of life, it is important to add appeal to otherwise mind-numbing industrial applications.

In general, orange and pink do not always provide a wow factor; however, the combination of ORANGE GROVE with HOPE and TWINKLE creates a soothing and comforting sophisticated palette that grabs attention without yelling at you.

ORANGE GROVE

TIGER Drylac® product ID 49/38706

Orange is warm and creative. Associated with achievement and beginnings, it promotes a sense of well-being. As a surface finish, ORANGE GROVE reveals subdued hints of platinum and star gold special effects making any surface incredibly visible and bold.

HOPE

TIGER Drylac® product ID 49/38709

Stimulating and optimistic, HOPE is soothing and relaxing. The smooth reserved pearlescent effect reveals a fine blue overtone, almost undetected to the naked eye. HOPE is unexpectedly engaging; it is not pink, it is not blue, it is more like a dream over the top of cottony silver-lined clouds on a Wednesday afternoon.

TWINKLE

TIGER Drylac® product ID 49/91558

Inspired by the glowing stars, TWINKLE shines with intermittent gleams. Due to an unusual combination of aluminum and gold pearl effects, the surface almost flickers before the eyes, adding secrecy and allure. With TWINKLE, it is now possible to add twinkle panache and comfort to surfaces and avoid the boredom of simple grays and silvers.

Contrasted, juxtaposed or used individually, ORANGE GROVE, HOPE and TWINKLE are stylish, soothing and bold. They will make any surface get noticed.

ORANGE GROVE, HOPE and TWINKLE are from the Stellix line; TIGER Drylac® 2nd generation bonded metallic powder coatings manufactured using an advanced proprietary technology that imparts advanced quality and a high degree of color consistency during the application process.

Series 49 is a polyester TGIC weather resistant powder coating for interior and exterior applications.

Due to digital reproduction, discrepancies between the colors displayed and the actual powder coating should be expected. For an accurate color and finish assessment, it is recommended to obtain a powder coated sample panel.

To request a sample panel of ORANGE GROVE, HOPE or TWINKLE contact a TIGER Drylac Regional Sales Manager or Customer Service | [email](#) or call 800 243 8148
